GOVERNANCE

Zoning. It was noted that the city has informed the District that the library property is currently zoned Residential-1 and Commercial, but would be rezoned to the more appropriate zone of “Open Space” which will better reflect the current use.
**Library Building Project.** Beesley explained that she will be investigating a few options for a new building which will include talking to Chuck McGraw, Community Development Director about the possibility of a joint venture with the city, and also see where a library would fit in with city plans. She will also contact Steve Earnest, School Board Chair, about the possibility of West Elementary as a library.

**Director’s Report.** Beesley reviewed and gave an update on the director’s report which is attached. The 4 defective computers were repaired by Jan Bony and put into service. Although new system has its glitches and this creates a stressful situation for the staff, they are handling it well. All agreed that the June 8 kick off celebration for the new shared catalog was a success.

New website is working. The information on it still needs to be updated. The VanGo art exhibit was a big success. Many good comments from the public were received.

Movie attendance is good, Bit Mobile attendance is light. Discussion has begun for another Million Page Challenge. Other aspects of the report were reviewed.

**RESULTS POLICIES**

A brief report was given on technology. The new system has been up and running for a week. When glitches are worked out and staff has adjusted to new system, plans for a circulation station at Warm Springs will begin.
